

# Myzone puts you in control

Myzone 3 is a climate control system that gives you the ability to have precise control of the temperature in each room individually.

With the addition of up to 12 touch screen consoles or sensors – every room will be at the temperature you want, all the time. You can also direct airflow to only the rooms you choose for maximum efficiency and savings.

Your Myzone 3 will work with leading ducted air conditioning brands. When using ducted air conditioning in your home a great way you can optimise energy efficiencies and savings is by using a zoned system. This is where the Myzone 3 can add value to room temperature control and save you money by not heating/cooling rooms that aren't occupied. Myzone 3 also gives you the ability to have various temperatures throughout your home giving everyone their perfect temperature.

## Room temperate control for optimal efficiency

The clever zone controller detects if a room is unoccupied. It will then automatically adjust the room temperature or switch off the air conditioning to the room. This significantly improves energy efficiency and reduces the running cost of a ducted air conditioning system's in homes and offices directing the airflow only to the rooms you are using.

## Set and Forget

Create up to nine 'favourite' zone scenarios to suit your life style, then schedule these 'favourites' to match everyday living. But for a quick set and forget 'system off' timer, just press the seven setting sleep timer button and your Myzone 3 takes care of the rest.

## Style and cost effective

Myzone 3 elegant control consoles or sensors are designed to suit any home's interior. Changing the background colours on your controller is as straight forward as choosing the precise temperature you want.

## Myzone 3 functionality makes life easier for you

When your ducted air-conditioner is controlled by the Myzone 3 it gives you the ability to zone your house and direct the airflow to only the rooms you require. During the day to save money you might only cool down the living areas and not the bedrooms then at night you might change to only cooling bedrooms.

The Myzone 3 doesn't only just control zoning dampers it detects the rooms that need more airflow to cool. If there is a space in the house that is harder to cool down it will send greater volumes of airflow to the area and reduce airflow requirements in rooms that don't need bigger amounts of volume.

## Features

## MYzone3

Compatible with other home automation systems	Yes
In duct supply air sensor for improved efficiency and temperature control	Yes
Roaming sensor to ensure every zone is maintained at the exact temperature	Yes
Temperature sensor in every touchscreen controller	Yes
Zone on/off button on every sensor	Yes
Occupancy sensor with backlit display and full in room temperature control	Yes
Colour match sensor to light switch	Yes
Fan auto control to maximise comfort and minimise energy consumption	Yes
All sensors can be calibrated for precision control	Yes
IFTTT compatible	Yes
Google Home, Amazon Alexa compatible	Yes
Customisable touch screen	Yes
Number of zones available	14 (8 standard and 6 zone extensions)
Maximum number of screens	12
Airflow adjustment	5% increments
Favourites mode	Yes
Filter clean alert with adjustable frequency	Yes
7 day scheduling	Yes
Sleep timer	Yes
Warranty 10 years (parts)	Yes
1 year (parts and labour)	Yes
Air conditioning unit control	Mitsubishi Heavy Industries, Hitachi, Samsung*, Mitsubishi Electric, Fujitsu*, Panasonic, Daikin, , Toshiba, LG, Temperzone
Zone temperature sensing options	<ul style="list-style-type: none"> <li>▪ Touchscreen</li> <li>▪ Myzone Controllers</li> <li>▪ Zone Sensors</li> </ul>
Options for A/C unit control	<ul style="list-style-type: none"> <li>▪ Return air</li> <li>▪ Master zone*</li> <li>▪ Auto select from temperature controlled zones</li> </ul>
Modes	Cool, heat, high, auto
Fan speed	Low, medium, high, auto
A/C unit auto off feature	Yes
Damper control	Tuned PID
Protocol	CAN bus
Remote control	Smartphone/Tablet via 4G

*\*master and auto select are not available on LG systems. \* Samsung - Does not control 16kw units and higher \* Fujitsu - Does not control 20kw units and higher*

\* Conditions apply

# Complete control

Offering complete control over your ducted air conditioning system the Myzone 3 is compatible with leading brands in the air conditioning industry.

Myzone offers an easy to use App which enables you to control your air conditioning system via your smart phone or tablet. This App gives you even greater control with 4G access from anywhere providing savings and a more efficient solution. Now the whole family can come home to the perfect temperature.

Wireless Zone Sensor

Zone Sensor/Controller

Myzone 3 Controller

## The Myzone 3 Kit

CPU with 8 zone module + transformer

Touch Screen Controller

20m Data Cable

## Choose your module

1690056	Daikin
1690057	Panasonic
1690058	Fujitsu
1690059	Mitsubishi Electric
1690060	LG
1690061	Toshiba
1690062	Hitachi
3200004	Mitsubishi Heavy Industries
1690069	Samsung
1690070	Temperzone

## Accessories

3205126	Wi-Fi Bridge
1690066	Supply Air Sensor
1690067	Wireless Zone Sensor
1690068	Isense Zone Sensor/Controller
