

Introducing our Latest Built-In Wood Heater Designs

Jarrahdale
Heating

CLYDESDALE

COUNTRYMAN

The Countryman & Clydesdale Built-In are the latest designs in the Jarrahdale range. Boasting huge fireboxes, these impressive wood heaters offer maximum heat output and feature an oversized door opening for easy loading of larger logs, and an extended glass viewing pane.

The Countryman & Clydesdale Built-In promise to sit seamlessly within a non-combustible fireplace cavity and are ideal for larger residences, open-plan living areas and homes featuring high ceilings or a mezzanine floor.

SPECIFICATIONS

CLYDESDALE
